

Basic Plasma Tools for Healing

Manual

Fabrication & Use

GaNS-Patches: Fabrication

- 1) Always make 2 patches from the same mix of Liquid Plasma (LP); one at a concentration of 100% and the other at 30%.
- 2) Introduce the tissue into a zip-lock bag
- 3) Inoculate the absorbant tissue with LP with the help of a syringe and close the zip-lock hermetically
- 4) Write the name of the user on the zip-locks

GaNS-Patches: Warnings

WARNING

- Prevent direct contact of Nano-materials and GaNS with the skin; do not take the tissu out of the plastic bag.
- Never eat GaNS, only use Liquid Plasma (LP)
- Your health is your responsibility; you are using Plasma tools according to your understanding and at your own risk
- The GaNS-patches are for external use only; cover sensitive areas with a cloth before placing the patch

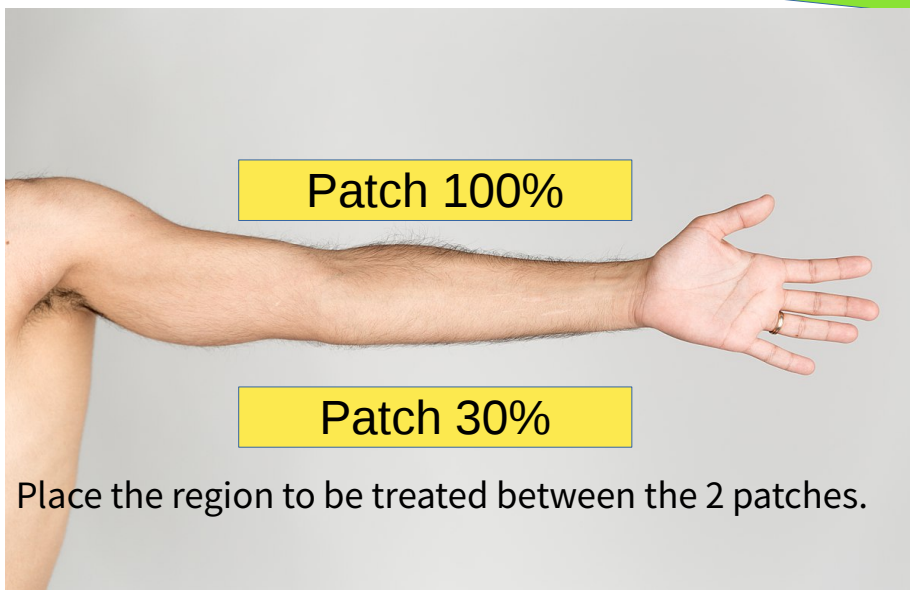

- Minor pain should disappear after some minutes
- Stronger pain may take some hours
- For heavy pain you can triple the patches (3x100% on one side and 3x30% on the other)

GaNS-Patch: Use

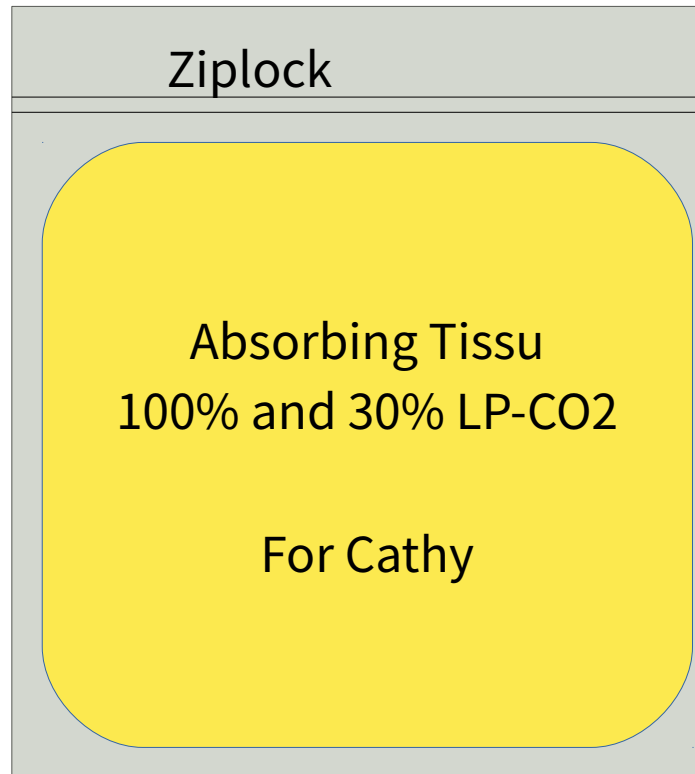

Label your Patch

A GaNS Patch can only be used by one person – to prevent the transfer of energy from one person to another.

- Use the Patch for 3 hours with pauses of 3 hours between each session

3p.LP-CO₂ + 5p.LP-CuO + 1p.LP-ZnO + 1p.Amino Acids

You can order the Plasma-First-Aid kit [here](#)

Quick Cup of Life

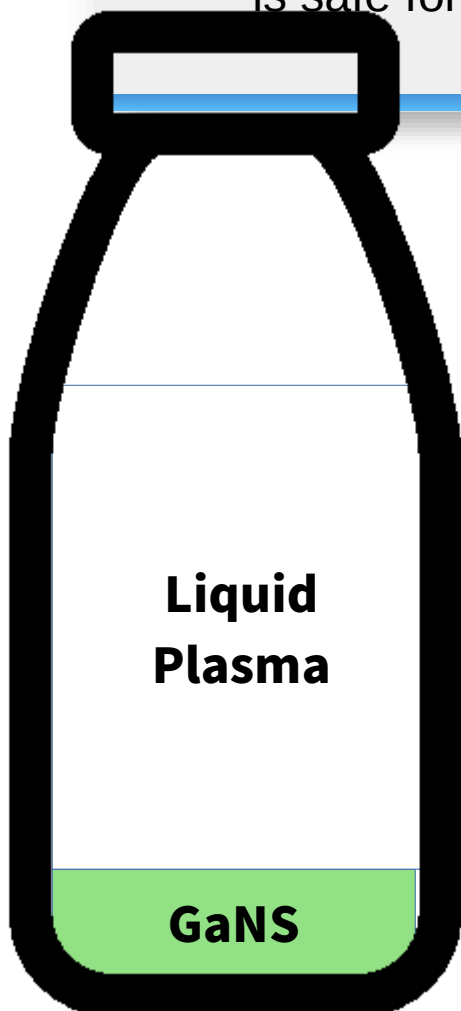

Wrap a Patch-CO₂ around a drinking water bottle; attach it with rubber bands

- To energize the heart, the lungs and the brain, simply breathe the air from the empty bottle by a straw
- To energize the body, condition the water in the bottle and drink it

Water Purification

- 1) Prepare a bottle with LP-CuO+GaNS
- 2) Add 1 liter of the LP to 100 liters of contaminated water
- 3) Let it sediment for 4 hours
- 4) The upper half of the water above the sediment is safe for drinking

Plasmatic First Aid

Use GANS of

GANS	Effect	Metal 1	Metal 2
CO2	Nervous System= Emotions, Balances Neuro System	Zinc	Nanocoated Copper
CuO2	Lymph System= Physicality, disinfection (don't apply too long e.g. as a patch on skin)	Copper	Nanocoated Copper
CH3	Blood System = Energy Flow, energizing	Iron	Nanocoated Copper
ZnO	Focus on Emotions (as cause of disease)	Zinc	Nanocoated Zinc
CaO	Calcium for the bones (use same procedure to produce GANS of other materials like Food-GANS)	e.g. use bone marrow of chicken bone, add caustic + boiled water, wash it, add CO2	
Amino Acid	Connects to your body	Collect on top of container	

Nanocoat Copper by fire with torch

- (1) take copper wire/plate, (2) use torch
- (3) heat copper until shines silver/gold (4) move flame slowly (5) let it cool (6) repeat 3 times+

Systems to use GANS-Water: Don't touch GANS, only GANS-water

Cuts, Skin infections

Clean the cut or infected skin

CO2 + CuO
1 : 1

Use system 1, 2, 6, 7

Internal Injuries

Add drops of GANS-water to water

5 3 1 1
CuO CO2 ZnO Amino
All systems possible

Broken Bones

Add drops of GANS-water to water

4 2 2 1 1
CuO CO2 CaO CH3 Amino
Use system 2, 3, 4, 7

Head, Brain Injuries

Add drops of GANS-water to water

4 2 4 1
CO2 CaO ZnO Amino (ZnO)
Use system 2, 3, 4, 7

Water Purification

Add to contaminated water

11 CuO/100l use 50% of top-water
If NO GANS available: (1) Get water container, (2) add wood-ashes (3) let settle down, (4) put top water to other container, (5) repeat 3 times

Prevention Nuclear Incident

Drink 3x a day a spoon of **CO2**
+ Use CO2-Patches on clothes, socks, shoes, spray walls and windows with it

Radioactive Contamination

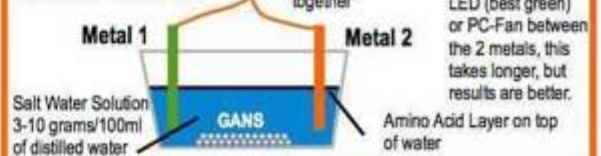

Make a Bath, 3 times a day, add **3l GANS-Water of CO2**

Electromagnetic Pollution shield

Place "Infinity Loop" on devices:
Take stranded nanocoated copper wire & form an "eight"

Make GANS

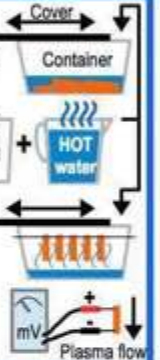

Make GANS-water ~24h later

- 1.) Collect Amino Acid Layer with Spoon
- 2.) ~5 times: Remove Salt Water, Add distilled water. 3.) Now you can refill as often you want. For body use only GANS-water.

Nanocoat Copper by caustic

- (1) **Caustic Bath** (a) place copper wire/plates in container (b) cover bottom slightly with NaOH (c) put cover on container with gap, pure hot water in (d) close gap (e) **Wait 0,5h**
- (2) **Caustic Steam** (a) cover bottom slightly with NaOH (b) hang copper wire/plate in container (c) put cover on with gap, pure hot water in (d) close gap (e) **Wait 48h+**
- (3) **Curing/Drying (3 days+)** (a) empty water (b) every ~6h touch wire/plate with Voltmeter (mV) the same on both ends for some seconds

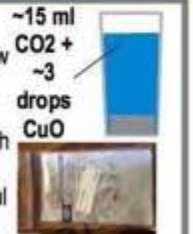

Nanocoat Copper by fire (if caustic/ torch NOT available)

- (1) take copper wire, (2) make fire with wood, (3) place wire in/near fire (mustn't glow), (4) remove + place 30x
- If NO copper available:** (1) Burn fruits, herbs, etc. Ash=Nano Material. (2) Mix in water, then its energized

Make and Use Patch:

- (1) Put Co2 GANS-water in a bottle add a few drops of the CuO GANS-Water (also other GANS-waters possible) (2) Put 10-15 ml of prepared water on house-holdpaper (e.g. with syringe), put it e.g. in ZIP-LOCK. Press off remaining air, close (3) label. Apply on painful location. Better use 2 patches of different ganses or 2 patches at one + 1 at other side
- Open Wounds/Burns Treatment:** Use 3 patches (CO2/CuO2/CO2) after bandage.

Direct Food: Use 3 patches on stomach (CO2/CH3/CO2) or Food-GANS (GANS from fruits, vegetables, etc., produced like CaO, instead of bone marrow, smash food) at the back of body and CO2 GANS-patch over stomach to create flow.

Make and Use Pain Pen:

- (1) Take a straight copper wire, bend one end (2) Take another piece, make a coil with at least 18 windings, counter-clockwise (e.g. take screwdriver, lay wire on it, turn right), bend one end (3) Make a second coil like first but with larger diameter (4) Put all 3 inside each other and coat with torch or caustic (5) Wrap adhesive tape or put in plastic/glass tube. Apply on affected areas for 30-40 seconds daily, up to 5x. Nanocoated single coil or straight wire with bended ends also work! Increase windings by step of 9 (27, 36, ...)

Always use chemical resistant protective gloves and safety glasses, when dealing with NaOH or nanocoated material!! Never consume or eat any GANSes! Try at your own risk!
