

World Peace Treaty

As a citizen of the Earth, I agree right now to put down any weapon of aggression or war. I make the final decision to never get involved in a war or to incite anyone to war, nor to develop or use weapons of war on this planet or in space. I make the commitment, body and soul to keep my word.

As a relationship partner (family, couple, circle of friends, etc.), I agree to renounce any aggression, blackmail, manipulation etc, to achieve what I want. I no longer want to get involved in quarrels or disputes; nor incite anyone. I commit myself to keep my word, body and soul.

As a living soul, responsible for his or her thoughts, words and deeds, I now accept to listen to my inner voice, the way of my heart, to trust it. I want to be transparent, ethical and authentic. I make the commitment, body and soul to keep my word.
